

# We're investing in our natural gas infrastructure.

## From the ground up.

Know what's below.  
Call before you dig.

Customer Service: 888.286.6700  
[www.atmosenergy.com/safety](http://www.atmosenergy.com/safety)

**Smell gas? Act fast!** If you suspect a natural gas leak, leave the area immediately and from a safe distance call 911 and Atmos Energy's 24/7 emergency line: **866.322.8667**

# Atmos Energy is upgrading natural gas lines in your neighborhood.

Our crews will be in your neighborhood replacing natural gas pipelines.

**If you are an Atmos Energy customer, a project might cause an interruption of natural gas service. If this happens, a doortag will be placed at the front of your home with instructions for reconnection.**

During these projects, it might be necessary to dig on or around your property. If this happens, we will make temporary repairs to yards, sidewalks and pavements until work is completed. When the projects are completed, we will work with you to restore affected areas.

Please be aware of traffic rerouting signage in the area.

We appreciate your patience as we modernize our system and continue to provide you safe and reliable natural gas service.
